

Now you can take your testing to new heights (or should we say places) ....

## New Fully Portable SUPA PAT with Thermal printer

This Ethos SupaPAT uses the Ethos or Ethos Plus with full qwerty key pad, comes complete with a scanner and is coupled together with a high spec technically advanced transfer printer capable of producing VINYL test labels that are bar coded automatically. This set up makes the large volume testing job a breeze.

This is a truly portable system – lightweight, but strong carry bag that can be a backpack or small wheeled trolley.

Tough vinyl bar coded labels printed on site at a cost of only 17c each
